➤ EXPERIENCE AT NIRMALA NIKETAN

NN has been a strong source of support in my life. It has helped me grow into the individual I am today. And that too not just in terms of the education they have provided me with but they've groomed me to become my best self. The staff has been immensely motivating to help us explore as much as possible and guide us towards our goal. It's been a memorable experience and I can never forget all that I've learnt here.

NIKI NAGDA

Year of Passing: 2019

B.Sc. Textile and Fashion Technology

➤ CURRENT POSITION

Celebrity Stylist

➤ EXPERIENCE AT NIRMALA NIKETAN

It was a great opportunity to study in NN. I have done my graduation from NN, starting from junior college. I had joined this college because of my parents pressure but after studying in this college for so many years, i truely understood, why my parents told me to join this college. It was a remarkable experience. Each and every year had so many unforgettable moments. I wanted FND in TY, but my grades being less for the subject I couldn't achieve it. However, studying in TFT was fabulous. Now I realize, it was best to choose this subject. Opting this subject, I came up to this level that I am now styling celebrities, tv celebs, Bollywood singers & wish to style actors & actress too in future. Thanks to the whole team of NN for helping me achieve my perfect line and most suitable career choice.

➤ CURRENT POSITION

*Founder of ArtworksByAamena
Specialist in Garment Designing and
Stitching, Kids clothes Designing and
Stitching, Crochet, Hand Embroidery, Fabric
Painting and Mehendi*

➤ EXPERIENCE AT NIRMALA NIKETAN

During my three-year degree course at the College of Home Science, specializing in the Textile and Fashion Technology (TFT) department, I had an incredible journey filled with unforgettable experiences.

First and foremost, the classroom atmosphere was always cheerful and vibrant. Interacting with fellow students who shared the same passion for textiles and fashion made the learning environment even more enjoyable. The theoretical classes were complemented by practical sessions that were nothing short of fun and exciting. We got to experiment with fabrics, colors, and designs, turning our ideas into tangible creations.

EXPERIENCE AT NIRMALA NIKETAN

One aspect that truly stood out was the open communication we had with our teachers. They were not just educators but mentors who encouraged us to explore our creativity and push our boundaries. Their guidance and support were instrumental in our growth as budding fashion professionals.

The college organized some of the best events, with Jamboree Haat and Jamboree Fashion Show being the highlights. These events provided us with a platform to showcase our skills and creativity to a wider audience. It was a thrilling experience to see our designs come to life on the runway.

Throughout the course, we learned a variety of textile techniques, including fine stitching, Indian hand embroideries, knitting, and crochet. However, my favorite part was delving into the intricacies of women's wear and kids wear. Learning how to create fashionable garments for different age groups was both challenging and rewarding.

Unfortunately, the final year had to transition to online classes due to unforeseen circumstances. Despite this shift, our professors remained incredibly interactive and supportive. They adapted quickly to the online format, ensuring that we received the same level of guidance and engagement as before.

My three years at the College of Home Science, specializing in TFT, were a transformative period in my life. The cheerful classroom atmosphere, the joyous practical sessions, the open communication with teachers, and the incredible events all contributed to a holistic learning experience. The knowledge and skills I gained, along with the unwavering support of my professors, have prepared me to embark on an exciting career in the world of textile and fashion.

➤ CURRENT POSITION

*Fashion Stylist, Fashion Designer, Visiting Lecturer,
Artist, Entrepreneur and runs own brand named Jinnievogue*

➤ EXPERIENCE

My brand deals with all exclusive out of the box handcrafted handmade fashion products. My success is all because of the foundation my college, College of Home Science, Nirmala Niketan at the department of Textile and Fashion Technology. I am so proud of it and deeply blessed. Right from the faculty, staff, teaching methods, practical knowledge, visits, assignments, research, content the course offers is next to incredible. All these forms a perfect core strength for an individual to step out in the fashion world which is so competitive.

What I feel the best out of all this and with experience is that I am independent, because of the roots being so strong and with immense knowledge gained I am capable of doing anything and everything globally.
